Item No. 4: APPLICATIONS RECEIVED FROM 1ST DECEMBER, 2005 ON INTRODUCTION OF PROCESING FEES.

Prior to 1.12.2005 there was system of multi entry access for receipt of the applications in the Ministry of Coal. Since application were received in the Ministry of Coal, as well as at the end of nodal Ministry/Department and CIL, therefore, a need was felt in the Ministry to streamline the system so that there would be a single entry level i.e. Ministry of Coal and this system was brought in operation w.e.f 1.12.2005. The request of the following consumers fall in this category.

Based on recommendation of Ministry of Steel and status of these plants verified by CIL are indicated against the name of each plant.

ITEM NO. 5

Rationalisation of Coal Linkage is an important issue drawing the attention of the Ministry from various consumers in view of the fact that it involves unnecessary long-distance coal haulage with attendant cost for the respective companies and also the economy. There are some Sponge Iron Units who have requested for rationalization of coal linkage.

The details of request of the consumers are given below:

S.No.	Name of Unit and location	Coal quantity in lakh tonnes and existing grade	Existing linkage from	Revised Source linkage requested from

Item No. 6.

Enhancement of Quantity on normative basis

There are few consumers who have been granted long-term coal linkage by SLC(LT) in the past. However, in these cases, the approved quantity has been considered at a level keeping in view the request of the consumer and not based on normative quantity that should be applied. These consumers have represented for enhancement of their quantity to the normative level in order to bring them at par with other similarly placed consumers. The request of these consumers have been examined in consultation with the Ministry of Steel, who have also recommended for enhancement of their linkages. List of such consumers are indicated as under:-

S.No	Name of the consumers	Capacity	Quantity	Source	Quantity approved	Grade
1	Jay Iron & Steel Limited	30000	36000	MCL	21600	F

	Vill. & P.O. Balanda, Sundergarh, Orissa.	(1 st Kiln)				
--	---	------------------------	--	--	--	--

SLC(LT) in its meeting held on 12/5/2006 recommended 60% of the quantity sought by the consumer to the tune of 21600 tpa, however, the consumer represented that the quantity allocated is below the norms and hence requested that within the satisfaction level of 60% the normative quantity may be considered. Ministry of Steel also recommended to bring the consumer at par with others. The normative quantity works out to be 28800 tpa the balance quantity of 7200 tpa is to be considered by SLC(LT).

2	M/s. Bindal sponge ltd, Talcher Distt- Angul, Orissa	97500 (1 st Kiln)	117000	MCL	70200	F
---	--	---------------------------------	--------	-----	-------	---

Ministry of Steel informed that the capacity should be 97,500 and the quantity requested by the applicant as 1.17 lakh tones. MCL Representative informed that the unit is commissioned. Hence, linkage approved taking into account 60% of the quantity applied for .

Item No. 7: Issuance of coal linkage order in respect of of M/s.Tata Sponge Iron Limited, Joda, Distt. Keonjhar, Orissa.

M/s. Tata Sponge Iron Limited, Joda Distt. Keonjhar, Orissa has a capacity of 240000 tpa as per the then norms, they were entitled to get 384000 tonnes per annum (240000x1.6). They were having a linkage of 336000 tpa. Therefore, they applied for additional quantity of 48000 tpa (384000-336000) The erstwhile SLC(LT) for sponge iron units functioning the Ministry of Coal in its meeting held on 12.12.2003 approved additional coal linkage to the tune of 48000 tpa (E/F grade from SECL sources), over and above the quantity of 336000 tonnes per annum for existing sponge iron capacity of 240000 tonnes per annum. however, the company did not accept the grade offered and requested for grant of B&C grade coal. Therefore, no linkage order could be issued so far. The company has now represented that they would accept E/F grade and in future if B/C grade is available, they may be considered for supply of that grade. Ministry of Steel has also recommended vide letter No. 15(13)/2003-IDW dated 10th August,2006 that the request may be considered.

SLC(LT) may take a view for issuance/grant of linkage for additional quantity of 48000 tonnes per annum with the satisfaction level being applied to similarly placed consumers.

Item No. 8 : Formulation of coal consumption norms in order to bring decline and economy in coal use.

Coal is no longer an essential commodity but it can still be considered scarce and hence it must be used efficiently and economically. The consumers getting coal through FSA would be expected to use it efficiently so as not to waste this scarce resources and hence norms and efficiency compliance should be carried out diligently by the concerned designated authority/agencies. This would also require that coal supplied should not be misused or delivered by FSA holder to others. Therefore, it is now expedient to formulate a coal consumption norms as done in respect of power sector consumers based on grade of coal to achieve the declared policy in this regard. SLC(LT) may take a view.
