All costs related to application preparation and submission shall be borne solely by the Applicant.

The MoC reserves the right to reject any or all applications without assigning reasons. Issuance of this RFP does not bind MoC to select any Applicant or appoint a Selected Applicant or Project Developer.

The MoC accepts no responsibility for any legal interpretation expressed herein.

DEFINITIONS

1. **“Affiliate”** with respect to an Applicant shall mean a person who, directly or indirectly: (i) controls such Applicant; or (ii) is controlled by such Applicant; or (iii) is controlled by the same person, who directly or indirectly, controls such Applicant; or (iv) is an associate company of such Applicant; or (v) is a subsidiary company of such Applicant.

The expressions “associate company”, “control” and “subsidiary company” shall have the same meaning as assigned to them in the Companies Act, 2013.

2. **“Applicable Laws”** shall mean all applicable statutes, laws, by-laws, rules, regulations, orders, ordinances, protocols, codes, guidelines, policies, notices, directions, judgments, decrees or other requirements or official directive of any government authority or court or other law, rule or regulation approval from the relevant government authority, government resolution, directive, or other government restriction or any similar form of decision of, or determination by, or any interpretation or adjudication having the force of law in India.
3. **“Applicant”** shall mean (i) a public sector undertaking (PSU); or (ii) a private company; or (iii) a joint venture (JV); or (iv) a consortium not exceeding three companies, submitting an application under this RFP for undertaking surface coal/lignite gasification projects.
4. **“Application”** shall mean the submission made by an Applicant to the MoC pursuant to this RFP, including all forms, documents, annexures, undertakings, declarations, authorisations, clarifications, and any modifications or supplements thereto submitted in accordance with the provisions of this RFP.
5. **“Authorised Signatory”** shall mean the individual representing an Applicant who has been duly authorised on behalf of such Applicant to execute and submit the Application in accordance with the terms hereof.
6. **“Clean Syngas”** means the combination of gases produced for the purpose of meeting the specifications required for downstream applications which is obtained after Raw Syngas has passed through a sequence of gas conditioning and treatment processes for removal of impurities like tar, sulphur, particulates and other gases. Clean Syngas is predominantly composed of hydrogen (H₂) and carbon monoxide (CO), with a combined (CO + H₂) concentration of not less than 55% by volume and nitrogen (N₂) content not exceeding 40% by volume, both measured on a dry basis.

Explanation:

Volume fraction of Nitrogen = (Moles of N₂) ÷ Total Moles in Gas Mixture

Volume fraction of (CO+H₂) = (Moles of CO + Moles of H₂) ÷ Total Moles in Gas Mixture

To convert specific mass to volume (under ideal-gas assumptions), use the formula:

$$V = \frac{m}{M} \times \frac{RT}{P}$$

m = Mass of gas (kg)

M = Molar mass of the mixture (kg/kmol)

R = Universal Gas Constant (8.314 J/mol.K)

T = Temperature (K)

P = Pressure (Pa)

MoC may take a decision on case-to-case basis if nitrogen content exceeds 40% and the Project Developer can demonstrate that the same is Clean Syngas.

7. **“Company”** shall have the meaning ascribed thereto in clause (20) of section 2 of the Companies Act, 2013.
8. **“Control”** shall have the meaning as ascribed thereto in clause (27) of section 2 of the Companies Act, 2013.
9. **“Cost of Plant and Machinery” or “Cost of P&M”** shall comprise cost incurred towards only new and unused plant and machinery, procured and installed exclusively for the Project and shall broadly include the cost of:
 - (a) core plant and machinery;
 - (b) technology license; and
 - (c) erection and installation for production of syngas and/or downstream product(s).

It is clarified that the **Cost of Plant and Machinery** shall not include any expenditure incurred on:

- (a) land; or
- (b) site development; or
- (c) buildings and civil works (not associated with erection and installation*); or
- (d) pre-operative expenses; or
- (e) financing costs (including interest during construction); or
- (f) any other soft costs; or
- (g) previously used, refurbished or transferred plant and machinery from another facility;
or
- (h) prior to approval of Scheme dated 13th May 2026.

**It is clarified that buildings and structures such as control rooms, cooling towers, product warehouses, workshops, and civil structures required for supporting equipment, machinery and piping shall be considered part of erection and installation.*

For verification of eligible plant and machinery as detailed above, the Ministry of Coal may empanel agencies under the Scheme.

10. **“Date of Commissioning of Project”** means the date on which the Project has been completed and demonstrated to operate for a continuous period of 7 (seven) days at a minimum of 50% (fifty percent) of the peak annual production capacity. The same has to be certified by the Board of the Project Developer and if applicable, confirmed by lenders/lenders' independent engineer.
11. **“E-Portal”** shall mean the electronic platform created and hosted for the purpose of the Scheme.
12. **“Financial Closure”** shall mean:
 - (a) in the case of debt financing, fulfilment of all conditions precedent to the first disbursement under the Financing Agreement; and

13. **“Force Majeure”** shall mean act of god, war, insurrection, riot, civil commotion, earthquake, storm, epidemic, pandemic, flood, drought, lightning or any other event or circumstance which the Project Developer could not reasonably foresee, prevent or control and is not the result, directly or indirectly, of the Project Developer's own act, omission, negligence, or breach, and the occurrence of which has a material and adverse effect upon the performance by the Project Developer of its obligations or enjoyment of its rights under the Project Agreement.

Upon occurrence of an Event of Force Majeure, the Project Developer shall:

 - i. as soon as reasonably practicable after the start of the Event of Force Majeure but no later than thirty (30) days from its start, notify the Ministry of Coal in writing of its occurrence, the date on which it started, its likely duration, and its effect on the ability to perform any of the obligations under this RFP; and
 - ii. take all reasonable steps to mitigate the effect of the Event of Force Majeure on the performance of its obligations including following of Good Industry Practice.
14. **“Group Company”** shall mean the Applicant and/or its Affiliates or Holding Company.
15. **“Holding Company”** shall have the meaning ascribed thereto in clause (46) of section 2 of the Companies Act, 2013.

16. **“Product”** shall mean Syngas produced from coal/lignite gasification or any downstream product derived therefrom, whether through a single chemical transformation or through intermediate transformation steps inherent and inseparable to the production of that product. - c. paints, adhesives, or polymers.

These examples are illustrative and the MoC reserves the right to determine whether a product qualifies having regard to this definition. Such determination shall be made prior to declaration of Selected Applicant for that round and for that Product.

17. **“Project”** shall mean a distinct and independently identifiable investment undertaking with separate coal/lignite gasification capacity, capital expenditure and product streams, capable of independent technical and financial appraisal and having statutory approvals, clearances and agreements, independent of any other Project.

A Project may include associated infrastructure, utilities and ancillary facilities, including but not limited to coal handling systems, washeries, power supply, water supply, storage and evacuation infrastructure.

Where any such infrastructure, utility or ancillary facility is shared with one or more other Projects, the cost thereof may form part of the Project Cost, provided that:

- (a) the gasification capacity and capital investment attributable to each Project are separately identifiable and auditable;
- (b) incentives are claimed only on expenditure attributable to the Project, including a fair and verifiable allocation of shared assets, where applicable;
- (c) no incentive shall be admissible in respect of expenditure towards any common infrastructure, utility or ancillary facility, or any part thereof, for which incentive has already been claimed or availed under this Scheme by another Project; and
- (d) the Project does not represent an artificial division, expansion or restructuring of an existing or proposed gasification plant for the purpose of claiming additional incentives under the Scheme.

The MoC shall have the sole authority to determine whether an Application qualifies as a Project and its eligibility under the Scheme.

1. INTRODUCTION

1.1 Background of the Scheme

- 1.1.1 The Government of India has approved the “Scheme for Promotion of Surface Coal/Lignite Gasification Projects” with an outlay of ₹37,500 crore (the “**Scheme**”).
- 1.1.2 The objective of this Scheme is to accelerate the implementation of surface coal/lignite gasification projects through targeted financial incentive, promote Atmanirbharta by reducing import dependence on chemicals and petrochemicals, enable value-added utilization of domestic coal resources, and contribute to achieving the national target of 100 Million Tonnes of coal gasification by 2030.

1.2 Key Features of the Scheme

- 1.2.1 The Scheme incentivizes entities to set up new surface coal/lignite gasification projects, with a financial outlay of ₹37,500 crore (the “**Financial Outlay**”).
- 1.2.2 The Scheme provides for financial incentive at maximum 20% of the Cost of Plant and Machinery (the “**Financial Incentive**”).
- 1.2.3 The following conditions shall apply to Projects seeking Financial Incentives under the Scheme (the “**Capping**”):
 - (a) The Financial Incentive for any single Project shall be capped at ₹5,000 crore.
 - (b) The Financial Incentive for any particular Product (except urea and Synthetic Natural Gas) across all approved Projects, shall be capped at ₹9,000 crore.
 - (c) Any Applicant, including its Group Companies, shall collectively not be eligible to receive Financial Incentive exceeding ₹12,000 crore under the Scheme, across all Projects. In case of JVs or consortiums, the Financial Incentive shall be calculated among the participating entities in proportion to their respective shareholding pattern or ownership in the project(s).
- 1.2.4 Any expenditure incurred prior to approval of the Scheme shall not be considered for determination of Cost of Plant and Machinery for computation of the Financial Incentive.
- 1.2.5 The Financial Incentive shall be disbursed in 4 equal instalments based on pre-defined milestones.
- 1.2.6 The Financial Incentive shall not be treated as equity contribution of the Project Developer for the purposes of financial structuring, debt financing or financial closure.
- 1.2.7 Under the provisions of commercial coal block auction, utilisation of coal is already permitted for coal gasification. The Financial Incentive shall not in any manner, debar or restrict Applicants/Project Developer from availing benefits/incentives otherwise permissible under the commercial coal mining regime of the MoC.

- 1.2.8 The Financial Incentive shall not in any manner, debar or restrict Applicants/Project Developer from availing benefits under schemes of other Ministries of the Central Government or State Governments.
- 1.2.9 No separate financial incentive of any nature will be considered by MoC for any Project in addition to the Financial Incentive provided under this Scheme, except the incentives available for utilisation of coal for coal gasification from the coal mines auctioned under commercial coal auctions.
- 1.2.10 Applicants shall preferably set up Projects at the pithead (criteria for pithead will be same as considered by the Ministry of Power for setting up coal-based thermal power plants).
- 1.2.11 The Project Developer may utilise the coal/lignite from their own mines/arrangements. However, MoC will also facilitate the grant of 30 to Projects through NRS linkage sub-sector under 'Production of Syn-Gas leading to coal gasification'. The responsibility of arrangement of coal/lignite and any other raw material shall lie with the Project Developer.
- 1.2.12 The responsibility for offtake shall rest entirely with the Project Developer.
